

Matthew Weber

Senior Full-Stack Developer

golferGeek@gmail.com | 763-218-5933 | Plymouth, MN

Profile

AI-fluent, full-stack developer with over 20 years of experience in software development, system integration, and web applications.

Recently finished an AI Agent Framework for small / mid-sized businesses needing privacy and security that SaaS solutions can't provide.

Strong background in AI Development(Coding and AI Agents), backend and frontend development,

Passionate about mentoring junior developers and contributing to meaningful projects.

Professional Experience

OrchestratorAI – Plymouth, MN (orchestratorai.io)

Owner, Primary Developer

2024– Present

- Developed AI Framework for SMBs, inside the firewall, local LLM as well as frontier model support. LangGraph, N8N frameworks supported.
- Using AI development tools such as Claude Code, Cursor, Codex.
- Mentoring interns on AI development techniques and guardrails including Claude Code Skills, Agents, Commands.
- Emphasis on creating “Big Ideas” for clients with any combination of AI agents and workflows
- Building a three-day class to teach development organizations how to use AI coding tools. It's based on an open source progressively growing project focusing on Claude Code skills, agents, and commands
- Building a prediction and risk application for stock markets, betting markets, and, as quickly as possible election predictions. This application is powered by OrchestratorAI

Lubetech – Golden Valley, MN

Lead Developer (Now Part-Time Contract)

2013 – 2025

- Leading the development of an eCommerce platform with a microservices architecture using **C#**, **.NET Core**, and **Angular**.
- Designed and implemented robust backend solutions hosted on **Azure**, ensuring high availability and scalability.
- Conducted code reviews and collaborated with cross-functional teams to optimize application performance.
- Currently on a retainer to maintain and enhance existing applications.

Independent Consultant

2003 – 2013

- Provided full-stack development services for various clients across multiple industries.
- Developed web applications using **C#**, **ASP.NET**, **SQL Server**, and frontend technologies.
- Specialized in database management and reporting services with **SQL Server Reporting Services (SSRS)** and **SQL Server Integration Services (SSIS)**.
- Built reusable frameworks to accelerate development for small businesses and startup clients

Intel – Contract Developer

2002 – 2003

- Designed and developed web applications and data solutions to streamline operations.
- Managed complex data integrations using **SQL Server** and developed custom modules for data processing.

CareerBuilder – Software Developer

2001 – 2002

- Developed a message queuing service for asynchronous processing, enhancing system scalability and reliability.
- Collaborated with cross-functional teams to implement new features and optimize the performance of web applications.

FirstWave Technologies – Web Developer

1998 – 2000

- Led the development of web applications using **SQL Server** and **ASP.NET**.
- Developed data-driven solutions to support sales and marketing functions.

Current Projects

- **OrchestratorAI:** AI agent and workflow platform for SMBs.
- **Mentoring:** Providing guidance and mentoring to junior developers and golf enthusiasts.

Education

M.S. in Computer Information Systems

Regis University – Denver, CO

B.A. in Philosophy (Minor in Computer Science)

University of Texas – Austin, TX

Certifications

- **MSITPro:** Business Intelligence

Technical Skills

- **Languages & Frameworks:** C# (.NET Core), JavaScript, TypeScript, SQL
- **Front-End:** Angular, React
- **Database:** SQL Server, SSRS, SSIS
- **Cloud Platforms:** Azure
- **Development Tools:** Visual Studio, Cursor (AI)

Availability

- Open to full-time and contracting positions needing a strong understanding of AI agentic development
- Available to support existing projects, offer technical guidance, and build team AI development skills.
